TECHNICAL SKILLS

Core Web:

- HTML5, CSS3, JavaScript (ES6)(OOP)
- Responsif Design
- SCSS / CSS Modules /CSS

Backend & APIS

- REST APIs
- Node.js
- Supabase
- Firebase, SQL
- OOP
- Java

CMS & E-commerce

- CMS
- Wordpress
- Shopify

Design & UX Skills

- Figma
- UI/UX Principles
- component-based design

Tools & Version Control:

Git & Github
Vite
Netlify / Vercel
Visual Studio Code (VSC)

Soft skills

- Adaptability
- Creativity
- problem solver
- Google ads

Frameworks & Libraries

React.js, Bootstrap, Tailwind

Testing

- Jest
- Vitest
- Cypress

PROJECTS

Pet Adoption Platform

02/2025 – 03/2025

Built a fully responsive pet adoption platform with user authentication, listings, and profile management using the Noroff Pet API (v2). Developed with vanilla JavaScript, HTML5, and CSS, including JWT-based login/registration with protected routes, and full CRUD functionality for pet listings. Designed a profile page with banner/avatar upload, editable modal, and post filtering. Implemented mobile-first layout, semantic structure, form validation, and localStorage for tokens, favorites, and user data. Project structured with modular views, UI components, and API handling.

Holidaze BnB

05/2025

Nettside for Bestilling av Overnatting

Bygget med React, Vite, Bootstrap og SCSS Modules.

Integrerte oversikter for lokaler og bestillinger med full CRUD-funksjonalitet.

Utviklet betinget logikk for ulike brukertyper arrangementsansvarlige og kunder inkludert egne dashbord.

Implementerte responsive skjemaer for innlogging, registrering, bestilling, redigering av profil og administrasjon av lokaler.

Styla og optimaliserte brukergrensesnittet for både mobil og desktop.

Koblet til Noroffs REST API for å håndtere autentisering, bestillinger og lokaldata.

Deployet via Netlify med rene URL-strukturer og hostede bilder.
