- Figma
- UI/UX Principles
- component-based design

### Backend & APIS

- REST APIs
- Node.js
- Supabase
- Firebase, SQL
- OOP
- Java

### Testing

- Jest
- Vitest
- Cypress

### Soft skills

- Adaptability
- Creativity
- problem solver
- Google ads

## Language

- Norwegian
- English

## Interests

- Music
- AI
- Handcrafting jewellery
- Learn new Things in general
- Shopify

## Projects

02/2025 – 03/2025

### Pet Adoption Platform

Built a fully responsive pet adoption platform with user authentication, listings, and profile management using the Noroff Pet API (v2). Developed with vanilla JavaScript, HTML5, and CSS, including JWT-based login/registration with protected routes, and full CRUD functionality for pet listings. Designed a profile page with banner/avatar upload, editable modal, and post filtering. Implemented mobile-first layout, semantic structure, form validation, and localStorage for tokens, favorites, and user data. Project structured with modular views, UI components, and API handling.

05/2025

### Holidaze BnB

*Nettside for Bestilling av Overnatting*

Bygget med React, Vite, Bootstrap og SCSS Modules.

Integrerte oversikter for lokaler og bestillinger med full CRUD-funksjonalitet.

Utviklet betinget logikk for ulike brukertyper arrangementsansvarlige og kunder inkludert egne dashbord.

Implementerte responsive skjemaer for innlogging, registrering, bestilling, redigering av profil og administrasjon av lokaler.

Styla og optimaliserte brukergrensesnittet for både mobil og desktop.

Koblet til Noroffs REST API for å håndtere autentisering, bestillinger og lokaldata.  
Deployet via Netlify med rene URL-strukturer og hostede bilder.
